

Document Tracking & Archiving System

Comprehensive Booklet Guide for Users,
Administrators, and Compliance Teams

Prepared by AddVenture Solutions

Version 2026.05 • Last updated May 11, 2026

The screenshot displays the DocTrack website, which is a document tracking and archiving system. The header includes the DocTrack logo, a 'Login' button, and a 'Sign Up' button. The main banner features the title 'Document Tracking & Archiving Made Easy' and a subtext: 'Structured solution designed to monitor, manage, and securely store documents throughout their lifecycle, ensuring easy retrieval and secure access.' Below this is a 'Get Started For Free' button. The 'The DocTrack Difference' section highlights four key features: 'Easy Upload' (upload documents from your device or scan physical documents directly into the system), 'Track Documents' (monitor document location, status, approvals, and access history in real-time), 'Quick Search' (find documents instantly using keywords, tags, or by scanning physical documents), and 'Secure Storage' (protect sensitive information with role-based access controls and secure archiving). The 'Elevate Your Document Management' section describes the system as a comprehensive document management solution that integrates workflow, approval, security, and compliance. It includes a 'Document Tracking' section with a table of document details and a 'Document Archiving' section with a table of archived documents. The 'Document Search' section shows a search interface. The 'Plan & Pricing' section offers four pricing plans: 'PO (Pay-As-You-Go)' at \$0.00, 'P 999' at \$999, 'P 2,999' at \$2,999, and 'P 5,999' at \$5,999. Each plan includes a list of features and a 'Get Started' button. The footer contains the DocTrack logo, a 'Products' section, a 'Support' section, and a 'Follow Us' section.

Appendix A: Visual Reference

Chapter 1: System Overview

1.1 Product Overview

The Document Tracking and Archiving System centralizes capture, monitoring, and storage of documents. It reduces paper loss, accelerates approvals, and ensures compliance through audit-ready activity logs.

- Open the application in a supported web browser.
- Review the summary dashboard after login.
- Navigate to your assigned document queue or workflow.

Pro Tips:

- ★ Use OCR search for scanned documents.
- ★ Verify document metadata before saving.

Homepage

1.2 Core Capabilities

DocTrack combines document categorization, workflow automation, secure access, and audit trails. It supports physical asset tracking with QR codes and hybrid document management.

- Enable role-based access control for sensitive records.
- Choose sequential or parallel workflow routing based on review needs.
- Check dashboard cards for real-time status information.

Pro Tips:

- ★ Plan category structures before bulk uploads.
- ★ Use teams for shared responsibility and faster processing.

Companyadmindashboard(Avail)

1.3 System Requirements

The system is designed for modern browsers and desktop use. A minimum 1280x720 screen resolution is recommended to view split-screen document previews and workflow panels clearly.

- Open on Chrome, Firefox, Edge, or Safari.
- Use a stable internet connection for uploads and workflows.
- Keep your browser updated for compatibility and security.

Pro Tips:

- ★ Clear browser cache after updates.
- ★ Use a secure network for confidential documents.

Companyadmindashboard(Free Tier)

Chapter 2: Getting Started

2.1 The Public Homepage

The homepage is the primary entry point for organization login and initial system access. It offers a clear path to sign-in and feature highlights.

- Visit your organization's login URL.
- Review the platform overview and feature benefits.
- Proceed to the login portal to enter your credentials.

Pro Tips:

- ★ Bookmark your login page for quick access.
- ★ Verify the URL before entering credentials.

Homepage

2.2 Organization Registration

New clients onboard with a guided registration flow. This captures company information, administrator details, and subscription preferences.

- Fill in the legal organization name and contact details.
- Set up the primary administrator account.
- Select the subscription tier and submit the registration.

Pro Tips:

- ★ Use accurate company information to avoid activation delays.
- ★ Confirm the administrator email before submission.

Signuppage

A form titled "Personal Information" with a progress bar at the top showing steps 1, 2, and 3. The form has fields for "First Name", "Middle Name (Optional)", "Last Name", and "Email". There is a "Next" button at the bottom right and a link "Already registered?" at the bottom left.

Signuppagementuation2

A form titled "Organization Information" with a progress bar at the top showing steps 1, 2, and 3. The form has fields for "Organization Name" and "Registered Name". There is a toggle switch for "Add Company Address" and a "Next" button at the bottom right. A link "Already registered?" is at the bottom left.

Signuppagementuation3

A form titled "Add Company Address" with a progress bar at the top showing steps 1, 2, and 3. The form has fields for "Company Email", "Company Phone", "Address", "City", "State/Province", "ZIP/Postal Code", and "Country". There is a "Next" button at the bottom right and a link "Already registered?" at the bottom left.

The image shows the fourth step of the DocTrack registration process. It features a blue header with the DocTrack logo and a progress bar at the top. The main content area is white and contains a 'Security Information' section. This section includes a 'Password' field with a hint 'Create a strong password (min. 8 characters)', a 'Confirm Password' field with a hint 'Repeat your password to confirm', and a CAPTCHA challenge with the text 'I'm not a robot'. Below these fields, there is a checkbox for 'Remember me' and a link to 'Forgot password'. At the bottom, there is a 'Register' button and a link to 'Already registered?'.

Signuppagementuation4Jpg

The image shows the DocTrack login page. It features a blue header with the DocTrack logo and a progress bar at the top. The main content area is white and contains a 'Login' section. This section includes a 'Username' field, a 'Password' field, a 'Remember me' checkbox, and a 'Log in' button. Below the button, there is a link to 'Don't have an account? Register'.

Loginpage

2.3 Secure Login & Password Policies

User accounts are secured by strong passwords and first-time login rules. The system enforces password complexity and encourages safe credential handling.

- Enter your registered email and temporary password.
- Choose a strong new password with mixed characters.
- Confirm the new password and complete login.

Pro Tips:

- ★ Use a password manager for secure storage.
- ★ Change passwords immediately if you suspect exposure.

Chapter 3: Command Center

3.1 Administrator Dashboard

The dashboard is an admin control center that shows document status, activity cards, and alerts for pending workflows.

- Open the dashboard after login.
- Review incoming, pending, and completed counts.
- Click cards to access urgent items or workflow tasks.

Pro Tips:

- ★ Check the dashboard daily to manage workload.
- ★ Use dashboard alerts to prioritize actions.

Companyadmindashboard(Avail)

Companyadmindashboard(Avail)2

- ★ Monitor usage before reaching limits.
- ★ Choose the plan that matches your organization's growth.

Chapter 4: Identity & Access Management

4.1 Managing Users

User management controls who can access the system and what actions they can perform.

- Navigate to the user management section.
- Create new user accounts with required roles.
- Suspend or modify users as personnel changes occur.

Pro Tips:

- ★ Remove access promptly for departing staff.
- ★ Limit administrative accounts to authorized personnel only.

Usermanagement

Createuser

4.2 Creating Functional Teams

Teams help route documents to a group of users and ensure work can be claimed by any available team member.

- Define teams by department or function.
- Assign members to each team.
- Use teams for shared review and approval routing.

Pro Tips:

- ★ Use clear team names to reflect business functions.
- ★ Keep team memberships current as roles evolve.

Teammanagement

The screenshot shows the 'Create New Team' form. It includes a 'Team Information' section with a 'Team Name' field and a 'Team Leader' dropdown. A 'Create Team' button is highlighted with a red rectangle at the bottom right.

Createteam

- Assign roles based on least privilege.
- Audit role assignments periodically.

Pro Tips:

- ★ Use separate roles for viewing, editing, and approving.
- ★ Avoid giving full admin rights unless necessary.

Rolemanagement

4.3 Roles & RBAC Matrix

Role-Based Access Control ensures users can only see and act on documents appropriate for their job responsibilities.

- Review each role and its permissions.

Chapter 5: Digital Repository

5.1 Category Management

Categories organize documents into logical groups for better search, filtering, and reporting.

- Create document categories that match your business workflows.
- Attach metadata fields to each category.
- Review categories regularly to avoid clutter.

Pro Tips:

- ★ Use standard naming conventions for categories.
- ★ Archive unused categories to keep the repository clean.

CATEGORY NAME	TYPE	DOCUMENTS	CREATED	ACTIONS
Contract	Company	4	Mar 04, 2026	
Finance	Company	6	Mar 04, 2026	
Leave	Company	3	Mar 07, 2026	
Letter	Company	17	Jan 20, 2026	
Marketing	Company	3	Mar 04, 2026

Others	Company	6	Jan 20, 2026	
Policy	Company	2	Mar 04, 2026	

Documentcategory

Createnewdocumentcategory

5.2 Uploading & OCR Processing

Upload digital files and scan images while OCR automatically extracts text for full content searchability.

- Open the Documents module and click Create Document.
- Attach the file and enter metadata such as title and keywords.
- Save to generate a tracking number and QR code.

Pro Tips:

- ★ Provide clear titles and descriptions for every document.
- ★ Choose the correct category before saving.

5.3 Document Search & Retrieval

Search across titles, metadata, and OCR text to find the right document quickly.

- Use the search bar for keywords or reference numbers.
- Apply filters such as document type and date range.
- Open results directly to the document detail view.

Pro Tips:

- ★ Start with broad keywords and narrow with filters.
- ★ Use OCR text when searching scanned documents.

5.4 Detailed View & Versioning

The detailed document view displays metadata, history, current workflow status, and version records.

- Open a document to view its metadata and history.
- Review previous versions and comments.
- Use the detailed information to verify document status.

Pro Tips:

- ★ Check the workflow history before taking action.
- ★ Review version notes to understand changes made.

Viewdocumentdetails

Viewdocumentdetailscontinuation

Chapter 6: Intelligent Workflows

6.1 Sequential vs Parallel Routing

Choose sequential routing for ordered approvals or parallel routing when multiple reviewers work simultaneously.

- Select sequential routing for step-by-step approvals.
- Select parallel routing for simultaneous review.
- Assign the right approvers or teams for each workflow step.

Pro Tips:

- ★ Use parallel routing to reduce waiting time.
- ★ Use sequential routing for compliance-heavy approvals.

The screenshot displays the 'Forward Document' interface. At the top, there's a header with an upward arrow icon, the title 'Forward Document', and a subtitle 'Select recipients to forward this document'. A 'Back to Documents' button is in the top right. Below the header, a green status bar indicates 'Document uploaded successfully. Please select users to forward to.' The main section is titled 'Forward Document to Recipients' with the subtitle 'Select offices and users for each forwarding step'. Under 'Workflow Type', 'Sequential Processing' is selected with a radio button. A tip box explains sequential processing: recipients process in strict order, and each must complete their action before the next receives the document. It lists features like 'Step-by-step processing', 'Controlled workflow', 'Drag to reorder', and 'Auto-notification'. The 'Final Recipient' section, highlighted in yellow, instructs to choose exactly one final recipient. It includes a 'Select One User' section with a 'Filter by Office' dropdown set to 'All Offices' and a 'Search Recipient' input field. A list of users with radio buttons is shown: Maria Santos, Justin Jose Salvador, John Cruz, Angela Reyes, and Jamal Al Badi. A note at the bottom states 'Only one final recipient can be selected. Final recipient will be Step 2.'

Forwardsequentialprocessing

Sequential Step - Document will be sent to this recipient only after the previous step is completed. Drag to reorder.

6.2 Initiating a Workflow

Start document workflows by choosing recipients, adding instructions, and setting deadlines if needed.

- Open the workflow routing options for a document.
- Choose the recipients or team inbox.
- Add comments, deadlines, and optional instructions.

Pro Tips:

- ★ Include clear instructions for each reviewer.
- ★ Set deadlines for time-sensitive documents.

Workflowmanagement

6.3 Workflow Dashboards

Manage work in To Receive, Pending, and Completed queues for transparency and accountability.

- Use the To Receive queue to see incoming items.
- Process tasks from the Pending queue.
- Review completed items in the Completed queue for auditing.

Pro Tips:

- ★ Check the pending queue frequently to avoid delays.
- ★ Use completed history for task validation.

Workflowtracking

Chapter 7: Tracking & Compliance

7.1 Real-Time Tracking

Track document movement across users, teams, and physical locations with timestamps and status updates.

- Open the audit or tracking view for a document.
- Review the timestamped status changes.
- Use tracking details to understand current ownership.

Pro Tips:

- ★ Review tracking before escalating overdue documents.
- ★ Use QR-coded physical tracking for hybrid workflows.

Audittracking

7.2 Audit Trails & Reporting

Every action is logged for compliance. Reports help verify approvals, access, and archive activity.

- Generate audit reports for recent document activity.

- Review access logs for compliance checks.
- Use reports to identify process improvements.

Pro Tips:

- ★ Keep audit records for the required retention period.
- ★ Use reporting to support internal and external reviews.
